I. Program Implementation Highlights and Notable New Developments

Please use this space to describe how the program has been implemented over the grant period and any notable new developments since the midterm report.

The Program was successful and had a lot of interesting achievements as it utilized a wide range of approaches to equip young people in and out of school aged 12-25 years with messages on Human Trafficking, how to identify, detect and respond to issues of human trafficking. Some of the approaches like the community outreaches ensured that the young people themselves were the ones who actively went out and talked to communities about human trafficking in markets and other surround communities which was quite appealing to the general public as they saw they as change agents. The recorded songs on human trafficking and the videos developed in both Luganda and English version were very vital in triggering the discussions on human trafficking and helping the communities understand human trafficking from their own point of view. The resource guide and other IEC Materials developed and disseminated also support and made the Aware and response campaigns stronger in the communities where the project was implemented. the community outreaches and social media platforms were also great avenues for sensitizing communities and in most communities the young people have formed clubs on Human Trafficking and although the project is coming to an end we will need to continue supporting this club activities to ensure sustainability and efficiency in fight against Human Trafficking in our communities and or preventing young people from being trafficked internally and internationally.
II. Activities Carried Out and Accomplishment of Program Objectives

Please state each objective and answer the following questions:

a. Briefly describe the activities carried out to meet the objective as laid out in the project proposal.
b. Describe the different methods and approaches used to achieve the project objectives.
c. If activities completed differ from your proposal what caused these changes?
d. If there were additional accomplishments than expected, please describe them and explain what activities led to these accomplishments.

Objective 1: To increase awareness about Human Trafficking and commercial sexual exploitation among young people aged 12-25 years in Kampala and Wakiso Districts, Uganda

Planned Activity 1.1.1 Conduct human trafficking and sexual exploitation initial orientation and introductory one-day meeting with schools, orphanages, churches and community local leaders

Indicator: 2 schools, 2 orphanages 2 churches and 2 community local leaders initial meeting.
Actual: 2 schools, 2 orphanages, 2 churches, 2 community centers were reached and initial Introductory/ orientation meetings were held with Directors, Local community Leaders and 2 Pastors.

Initial Introductory and Orientation Meetings were held by the UYDEL and RAHAB Uganda Teams with Directors, Local community Leaders and Pastors to seek their support and acceptance for the team to conduct Aware and Response: Prevention of Human trafficking and sexual exploitation campaigns with the young people in their establishments.
As a result, letters of approval were gotten from the different Churches, schools, orphanages and local communities accepting the UYDEL and RAHAB Uganda Teams to conduct Prevention of Human Trafficking and sexual exploitation campaigns.
Below is a list of school, churches, orphanages and communities that were approached and accepted to participate in the awareness campaign

Makindye Pastors Association

Church

30 pastors

**God Cares School**

Pastor Dongo held tightly to his vision to build a five story building that would be a home to orphans while serving as a school. In 2006, the God Cares building project was completed. The church basement housed the first God Cares Secondary School until the new high school opened its doors on January 31, 2011.

As of 2015 there are two campuses. God Cares Nursery/Primary and God Cares High School. Both provide a solid Christian education and is home to over 350 orphans or boarders from needy families. [http://www.ugandabuyamba.com](http://www.ugandabuyamba.com)

**Planned Activity 1.1.2** Support mobilization efforts to meet the children and staff communities in the orphanages, churches, schools and communities around the schools.

**Indicator:** transportation for each location 2 schools, 2 orphanages, 2 churches, 2 community centers and dates arrange for ½ day events.

**Actual:** all transportation and other mobilization efforts were done for the project team to visit and meet with children and staff in the 2 schools, 2 orphanages, 2 churches and 2 community centers.

---

**Planned activity 1.1.3** Conduct a half day workshop in 2 schools, 2 orphanages, 2 churches and 2 community centers.

**Indicator:** that 2 schools, 2 orphanages 2 churches and 2 community centers would be visited for the ½ day awareness and that 300 young people would be reached and out of 300 20 club leaders will be selected. 100 young people in 2 churches will be reached, 20 Young people in orphanages. 20 peer leaders that are out of school, street and slum young people in 2 UYDEL and 1 Rahab Uganda drop in center would be trained.

**Actual:** 2schools, 2 orphanages, 2 communities, and 2 church outreaches were conducted reaching a total of 581 children and young people aged 12-25years, 4 Teachers, 2 Community Leaders, 2 Patrons and 2 pastors with messages on Prevention of Human Trafficking and sexual exploitation among young people.

Watoto Harvest Church - February 6, 2016

On February 6th, 2016, the project team then did an outreach at Watoto Harvest Church. It started with the youth doing worship songs and testimonies. A total of 26 youth and 2 youth pastors were at this program who signed in and registered with us. One of the young ladies shared how a snake had fallen on her in a chicken coop and how it didn’t bite her and she was so grateful for the blessing. As a team it was nice to spend this time with the students and build a relationship with them. We then introduced the team and how we had visitors from Hong Kong who do outreach in brothers and bars and clubs working with Ugandan girls who are trafficked to Hong Kong. Annette Kirabira then spoke with the youth about human trafficking is and the means, acts and exploitation. She really did a lovely job with the youth to make it informational, but also culturally explaining things and to their level of attention as young adults and youth. Then we had Daniel sing his song in both Luganda and English the youth enjoyed the song and really took interest in our social media campaign were we have a poster of Daniel promoting his song and you take a photo with it and then share it on your social media. The hash tags that are being used (see social media campaigns below). After his song we had Kulsum, Andrew and Daniel do a skit. In recent weeks there has been a lot of social media and awareness because of the people who have been trafficked to Saudi Arabia so we took that scenario and used it to show what can transpire. We also explained how Trafficking is vulnerability not just poverty and that ANYONE can be trafficked and the traffickers can take their time and pray upon the dream of a better life that anyone can have here. So we really spoke into the youth about what is happening in Uganda. Questions that were asked included:

- What specifically does your NGO do for this cause?
- What is the Government doing to stop it?
- What and were shall we report such cases?
- Can we trust the officers to help us?

We then finished with explaining how we would like to continue the relationship and that if they would like to be a Human Trafficking Ambassador to please write an essay and explain why they would like to be a part of the program for future training and relationship in their community. After our presentation we then all went out and took photos as staff and individuals with Daniels poster for the social media part of our campaign and so far it’s all been blowing up on facebook and whatsup. Some of the photos are attached. We also had youth coming and asking to volunteer and how to get more involved with the NGO side.

Watoto Subbi - February 26, 2016

We had our normal program but this time we added in another skit. The students we were talking with were in the Primary four to Senior Six and some of them were going to join University this next year and so we added in a skit about sexual exploitation on campus.

In the skit, we are seeing an increasing number of cases were the professors are soliciting the young girls for sexual favors in order to receive good marks on their tests and papers. The girls are feeling pressure and most of them end up having sexual relations with their professors. We showed the outcomes and effects and that one of our victims stood up to the professor saying she was turning him into the Police.

We then did our skit about going abroad and being trafficked since it is still getting a lot of media attention and it is the hot topic right now with the Saudi Arabia labor trafficking. Daniel again sang for the group and they enjoyed as Watoto is known for their music and drama it was wonderful to bring to them a resource they are familiar with.
We had a question and answering session and the students asked a lot of great questions. They continued to explain that they have seen this as a new trend, they want to know what the Ugandan government is doing to stop people from going abroad and what are the police doing locally here. They asked what we are doing to do to traffickers here locally and what are we doing internationally with other governments to collaborate and combat human trafficking. They asked if you’re in a foreign country how and where do you go to be able to come back to Uganda. We had an incredible turn-up of students we had 310, there was a sound team of 10 Project staff and then we had 15 staff from Watoto.

We continue to challenge them to go out and tell 10 people what you heard today and if that was really done we advised them if we had about 250 students today that would make 2,500 people aware and responding to human trafficking. We told them that they are the next generation of Uganda and their voices are amazing and they can be heard and this is a way to do that. Just by telling your friends you have been able to reach out to over 2,500 people. But after getting in the numbers 310 students present, we see that it could potentially be 3,100 people that could hear this message if we practice the multiplier effect of telling another 10 young people. As we continue to do the outreaches more request have come in. We have been requested to talk with the University students and to go to Gulu to bring the awareness to that facility. We would be reaching well over 300 children in Gulu.

Since all the children were minors and we needed their caregivers’ confidentiality at this sight, we were unable to take photos of the children or do the campaign with Daniels social media. We have all signed a confidentiality clause saying that we would abide by those terms to do this outreach, the room and the lighting was also bad, but we did get a team photo and we did get some video of the skits.

**Watoto Bbiri - March 2, 2016**

We had our introduction as a team and then Allen spoke about what human trafficking is and then we did a skit. This session was attended by 157 children and young people aged 12-25 years. The first skit again was the one were a professor is using sexual exploitation with a student that didn’t pass her class. A very typical event in the University. Most children at Bbiri knew what the skit was about as it was unfolding and interacting as it took place. Then Daniel did the English version of song and the kids went wild and just loved it.

The second skit we did was the trafficking a vulnerable student who graduated from University and had no job, she was taken to Dubai where she was promised a job as a maid and ended up in forced prostitution. As an energizer we had a young man who came up and sang a song for us. It was truly a lovely song. Ugandan’s are known for their voices and singing abilities.

Watoto’s outreach takes young children around the world singing and bringing the word of God to many countries. It is called the Watoto children’s choir. We had more amazing questions and this group was more interactive with us and asked a lot more questions and were very involved in the skits with laughing and chuckles and comments.

We then explained again that we want to challenge them to become ambassadors and to tell 10 people who were not in this program about human trafficking. I told them the story of Worship Harvest and how one girl told her sister and her cousin and now that was three girls that are aware and have not fallen victim to human trafficking.

Each time we do the skits the team adds another aspect to it to make it more real and to watch them grow in this outreach has been incredible. Andrew (One of the Project staff) this time ended up being the Master of Ceremony and he did an excellent job and to see each person’s gifts and to use them is empowering others.
One of the head students then spoke at the end and gave a story of how over the holiday she went to town with her friend and she wanted to buy jeans, the guy selling them talked so fast and before she knew it she had 2 pairs of jeans and when she got home neither one fit her. She said this is an example that was given in a talk prior that one the pastors brought to them and she said she remembered his comment of you can’t trust fast talking people and to always watch out for fast talkers. She said just like this talk you should be able to remember what was said

The head teacher also came up and spoke the same comments and also explained again that they can become involved with our team and that they are all expected to write wonderful essays.

In conclusion therefore, all young people sensitized were able to acquire knowledge and skills on how to identify Human Trafficking incidents, become advocates against human Trafficking and were able to come up with skits and poems on human trafficking. Some young people who were interested in becoming Human Trafficking Ambassadors in their schools, churches, orphanages and communities wrote essays and these were assessed by the project team and the children with the best essays were selected and invited to be part of the Big event on Human Trafficking that was going to take place on April 9, 2016 at Makindye Country Club

Pastors’ Half Day Outreach – March 31, 2016

Annette started our program with a detailed description of human trafficking and what has been going on locally as well and abroad. As she was speaking the pastors were very engaged and listening to every word. They really took part in the outreach and enjoyed the skit as well as the songs that Daniel sang. The team did the skit about a girl being taken abroad and it was again very well done. The pastors then were told about getting involved and how important it was that we did this outreach in their area of town. Kabalagala is a section of town that is near Makindye, in that area it is heavy populated by bars and a lot of sexual exploitation is taking place in this area. Also one of the biggest brothels was not but a 5 minutes’ drive from where we were all seated that day. We also informed them of the up and coming activity of people buying and renting homes in that area for sexual activity. The pastors agreed that they need to all give us an hour each Sunday to come and talk about human trafficking to their congregations that the numbers are rising in knowing people that are trafficked. We changed our program a bit so we could use more time with questions and answers. After reviewing the questionaries’ while Annette was presenting it was clear that, there were several questionaries’ that were filled out with the last question, do you feel threatened of being trafficked. I have never received so many yes’s. Some of the comments and questions from the pastors are as followed:

1. That please come to our churches and speak for an hour on Sundays to inform people of what is going on. This is one aspect of an outcome that is growing our capacity of getting into other communities.
2. Again that what is government doing, and then it was discussed that they are doing their part, but that as pastors they are the ones who are able to change the community and that are the ones going to be able to help and reach out to many more people. The pastors agreed that it was time to step up and to take action. (Side note- as they come to the full day event, we will sit down with this table and discuss how we can make an action plan to further assist and get them to train and reach out to the congregation). It was also a nice note that they are seeing that my participation as a white person is there to train and equip them, that we are not the answer that they are the answer and the movement that needs to take this on. Because the church is the one who stays in that community long term.
3. Then it was brought to our attention that one of the pastors already had a family member trafficked.
4. We also had several youth pastors there who were giving great examples of how to reach out to their youth.
5. Question was asked what do you o when you come up to someone who is being trafficked
6. What are airports and buses to Nairobi doing to help combat this problem?

An outcome that came out from our 1st visit with Pastors:
One of them realized that there was a place in his area who were offering jobs abroad and he went in asking questions about human trafficking and then days later they ended up moving and is no longer in that area. He will be looking at the name of the business so we can alert authorities about this business.

In attendance, we had 52 pastors present for this awareness campaign. We had 13 of them sign up for the trainings on April 9th and April 22nd. We are going to be making provisions to insure that all 13 are able to make it to both trainings.
Planned Activity 1.1.4: Follow up visit/meeting to assess the impact of the awareness campaign in each of the respective target areas

Indicator: that 2 schools, 2 orphanages 2 churches and 2 community centers will be followed up and assessed on impacts created by the awareness campaign

Actual: Various follow up visits were conducted to each different location and some of the follow up visits are shared in the table below

Other follow up visits were provided to give technical support in the conducting of the Human trafficking Awareness outreach session based on the drawn action plans attached below in the case studies

Objective 2: To Increase Knowledge and skills of young people to identify, detect, prevent and respond to Human Trafficking and sexual exploitation issues in their communities

Planned Activity 2.1.1: Develop layout and plan the content that will be included in the aware and response information, education and communication materials and resource guides

Indicator: that all material with be developed and printed

Actual:
- T-shirt design and logos for wristbands were developed and printed
- Posters, flyers were developed and printed
- Recording of a video for the two human trafficking songs that were composed in the first phase of the project implementation. One in Luganda- local language and the other in English) the two videos were made by Daniel Manzi (aka Logic EM) a young person passionate about singing and human trafficking in particular with the support of the young Ambassadors and the project teams
- Development of cartoons in form of picture charts: The cartoons were developed and 50 copies were printed. In the cartoons, different situations are presented to show how children are lured into being trafficked or those that are at risk of being trafficked. In the process of developing the cartoons, they were also presented to the staff of
UYDEL, police and local leaders and they contributed as a way of improving and creating more clarity about the cartoons.

Planned Activity 2.1.2: through to Planned Activity 2.1.6: were achieved in the first phase of the project implementation. In which we developed the Aware and Response Resource Guides

Planned Activity 2.17: Conduct Peer-led sensitization meetings on human trafficking and sexual exploitation for 300 out of school street and slum young people aged 12-25 years
Indicator: No of out of School Street and slum young people aged 12-25 years reached through peer-led sensitization meetings
Actual: A total of 55 trained and committed young people/ambassadors/ Club leaders from 8 different locations were able to conduct outreaches on human trafficking and bring awareness on aftercare for survivors in schools, communities, orphanages and churches reaching out to a total of 1,523 people.

Makerere Modern High School:

The young people/ ambassadors in Makerere Modern High School conducted a human trafficking awareness outreach on April 23rd 2016 from 9-12 noon by going out into their community and going from business to business spreading the word on what Human trafficking was. Many people knew what they were talking about and were so impressed that young students like them knew of such things and that they are doing a great service by actually bringing that message to the communities. It was nice to see the passion and drive in the children’s hearts as they reached out to community people. They stopped at residences as well and passed out flyers and wrist bands. They also spoke about how we need to go deeper into the villages of Uganda and spread this message, then one of the other young ladies said that they can undertake the village outreaches as they go home on holiday from school as majority stay in the villages but they need enough IEC materials like flyers, posters to help them with the awareness creation. Local children and adults alike were part of this outreach. The students talked to over 100 people in this area.

We were impressed by how this school had already put the club together and had recruited more students to come along side of them as they did outreaches. There were 17 students in the outreach and 4 faculty Staff from the school. They split into 2 groups each group going with one of the leaders who we had trained. This school decided that part of the funds that they received from the project team during the big event, would be used to put up a sign post showing the club that they formed to combat and create awareness about human trafficking. Most of the community people reached asked how they could get involved and so we informed the students to ask them to reach out to others spread the message further.

Makerere Modern Secondary School April 23rd outreach Student Attendance:
1. Lilian Mussime 2. Victorious Nalukwago 3. Diana Munyana

**Support Staff/ Facilitators included:**

Mr Eric Kawooya, Valeria Katusiime, Michael Mussowa, and Fred Onyom

**Second outreach for Makerere Modern Secondary High School**

On April 30, 2016, the students went out again within the same community. This time heading in the opposite direction and were able to reach out to a larger community and even came into the area of the Makerere University Kampala. Which is the largest/ top University in Kampala. Again with the same model of using the resource guide and posters and flyers, they raised awareness about human trafficking.

Outcomes from this outreach were that the students realized how they can also further reach out by bringing this awareness and knowledge when they go home on holiday that they will take their t-shirts with them and wear them and explain what human trafficking is to those in the villages. Shop owners and community people all wanted flyers and posters to put up in their shops.

**Watoto Bbiri**

On April 18, 2016, Watoto Bbiri did their first outreach at Onwards and Upwards Senior Secondary School. They made a presentation starting with the definition of human trafficking and doing a skit for the students, there were about 400 children that attending this program on human trafficking awareness. The school reached is an Islamic school.

**Second Outreach - Watoto Bbiri: April 22, 2016 the Watoto team from Hope Bbiri went to St James SS Bulaga School**

The students organized themselves in the main hall with the students. There were 150 students that attended this presentation. They introduced the team and explained they were from a school as well and brought it to the level of peer to peer. They then explained to the students the definition of human trafficking, and means, act and purpose and examples of each.

The Watoto team then did 2 skits; they did one of a boy being trafficked for sexual exploitation abroad, and then a boss who was trying to exploit his works secretary.

They also used the resource guide and had questions and answers with them and had the children interacting with them by asking what the photos represented. They switched between 3 team members asking and interacting with the guide.
The children were very engaged in the skits and the resource guide. The teachers were also very alert to what was being presented and gave us feedback on how grateful they are for us to be talking with the children. They also took posters because they wanted them to be posted in their rooms. They would like to have a poster in each of the classrooms. The head teacher gave a very informative speech, emphasizing how important this message was and that students need to think about Uganda first for the jobs and not always thinking about going abroad for a better future. The school that we were at had a mix of children of Muslim children and non-Muslim children. The school has full boarding and day boarding. Which means that the day boarding children walk to and from school and can also impact their family that day with the knowledge that they learned from the presentation. It was in a perfect setting to reach out to the area. The principle of this school said that he would plan to form a club so they can both work together to present the same materials to the surrounding community. The 2 schools are about 2 kilometers from each other and are working together to make an impact in the area.

Watoto Suubi – The Hope Senior School Anti-Human Trafficking Club Outreach to Lowell Girls School on April 15, 2016

Twelve was the number of students who showed up for the outreach. They were in company of their patron Tr. Elizabeth Kabuye. They arrived at Lowell Girls School at 3pm sharp and kick started the anti-human trafficking awareness outreach at 3:37pm after some students from Lowell Girls School were gathered in one of the classrooms. This school is a Muslim school for girls.

A team member Isaac from the Hope Senior School anti-human trafficking club who happens to also be the clubs leader opened the session by breaking down the definition of human trafficking. For starters he asked if any of them could state it, getting a couple of responses from the audience. He went ahead and shared the three elements of human trafficking namely; Acts, Means and Purpose, explaining them in details.

He also shared about two ways of trafficking namely; Internal and External carefully explaining these in details

Another student named Elaine from the Hope senior school camp stepped up to share about the tricks traffickers use. This she did while engaging the audience.

Isaac returned to share about ways to avoid getting trafficked then Hope Senior School Anti-Human trafficking club stepped up as a team to do a skit portraying the purpose of human trafficking.

Christine another student from the Hope Senior School stepped up to do a brainteaser then shortly after did a poem on how to avoid human trafficking.

Right after that a question-answer session was conducted with the audience to conclude the occasion. Then the final prayer was said as the outreach came to its climax. Time check 5:5pm.
NOTE:
1: Gifts were given during the question and answer session with the audience.
2: Hope Senior School has made an anti-Human trafficking club.

11: Kemigisha Rebekah 12: Nansubuga Kristine
*Patron Tr. Elizabeth Kabuye.*

*Watoto Gulu – the outreach took place on June 13, 2016 and June 14, 2016*

The outline of this outreach is that a team of 5 people coming from both UYDEL and Rahab Uganda went to Gulu and conducted 2 human trafficking awareness campaigns one at a church and the other at Watoto Gulu. The 3 hour events included and introduction of what is human trafficking, a skit and Daniel sing both Aware and Response songs, and wrapping it up with question and answers.

The trip started on the June 12, 2016 as the project team drove to Gulu and checked into their hotel. The following day June 13, 2016 the project team arrived at a church community center. The center is for all the church communities in Gulu to have a place to meet and to have fellowship together and also to aid in a place for meetings. They offered a few rooms to those needing to stay overnight. The Project team met with 3 church leaders in Gulu and had a very small turn out. The reason was because the night prior a feud with the military and the opposition party started a conflict and both parties were engaged in a shootout. The town was recovering from the night prior and a lot of people were not sure about traveling. The gentlemen and pastors that came were very interested in the topic and we had a more intimate outreach and were able to really sit down one on one and talk about the issues at bay and learn as well from them what is going on in their area. They felt that a radio campaign would be a great idea for that area and would reach more people and give great education to the truths about human trafficking. They would like further education and for us to come and do trainings and get more people involved in awareness.

The team’s second outreach for the day was at Gulu Watoto on June 13, 2016. They were able to speak with the students and reach out to them through the 3 hour program, this time they included one of the students into the skit and it brought a greater relationship with the students. The students were very engaged in the skits and again shouted and hooted and their faces were glued to the outcomes. They enjoyed Daniels’ aware and response songs and had great conversations and questions. We were able to reach out to about 69 participants and about 4 teachers. The outcome of
this outreach is what was the most effective, Daniel was invited 2 weeks later to go back for 3 days and work with the kids and do songs with them about human trafficking.

God Cares high school - April 24 2016.

The Club Leaders conducted an outreach at One Accord Gospel Church

We briefed them about what we had gone for, then had a skit that was about people who were looking for work, saw an advert on paper, called the number and ended up being trafficked because they were promised to be given everything. After reaching some adapted but one of them couldn't so she committed suicide and their boss told the other girls to throw her away

After the skit we did some question and answer discussion and later, people were given chance to ask questions which they did.

The congregation had both adults and children and children were so active in answering and asking questions. There were six students and two teachers, one explained another took pictures

God Cares High school - Second outreach

We had a skit about a kid who was tired of her home coz they were poor so she run away and a trafficker found her, promised to give her a good life and back to school. She went only to be
subjected to hard labor but her trafficker left her phone and went to take a bath, that’s how she got a phone and called her mum who came with the police.

We shared because we wanted the kids to know at least their parents' number just in case and also to be contented, some new their parents numbers. Those details were connected as we went through discussions question and answer. They promised to tell others about it. We also passed out candy to those who asked questions

**Bbira Vocational training school - April 29, 2016**

This location is walking distance from the school, this training center was built during the war times of Kony and the LRA rebels in Gulu, so the students here are brought from Gulu because of the vulnerability and killings that took place during this horrific time period. Today the government is still funding this project and is still used to bring at risk and those kids who are about to age out and give them a trade. There were about 150 students that came to listen to the team. They did the skit that they had done previously and also the head teacher of this group then used the resource guide and had the students interacting with her on each cartoon.

**Worship Harvest April 22, April 25, April 28th, 2016**

**First outreach**

Started their outreach in the church again with the youth group that they conduct on Saturdays. Since we had done the original outreach there they still felt that new students have started to come so they did practice run with their own facility.

**Second outreach**

Then on Monday the 25th they went to a school and reached out to them during their assembly time and there were 400 children reached at Rise and Shine high school Ntinda.
**Third outreach**

One of the team members is a college student at Kyambogo University and each Thursday night they have a bible study. In a dorm room, which was not more than 10x 20 feet room with 2 bunk beds fitting 4 girls in a dorm room, they squeezed in about 16 students. They did praise and worship then while students sat on the floor and on the top bunks listening to the 2 ladies share with them the resource guide and the interaction of the students to the pictures.

**Fourth outreach**

The university students then all came to Rahab Uganda’s drop in center and did an outreach with the girls. They came to visit and to pray and encourage the girls at our center. They brought goodies and enjoyed the afternoon with the ladies.

**THE KINAWATAKA TEAM OUTREACH TO BANDA FARMERS MARKET ON 20Th/ 04/2016.**

The team consisting of six people started the outreach at 11:30pm. Led by a one Betty they divided or distributed themselves taking different portions of the market.

Luganda happened to be the dominant language used to assist in communication. The method used was person to person and stall to stall because everyone was busy working not willing to leave work. They only happened to have one manual so five of them happened to do without them. They shared off head and from there note books then later asked for response or questions from the revelers/traders they shared with.

They would start by breaking down what human trafficking is and all that comes with it and then ask for responses of questions.

In addition to the above they displayed and distributed and displayed flyers 45 in number and 30 rubber bands. They got done with outreach at 2pm.

**Important to Note:**

Of the team members

Nansubuga Hadijja and Assimwe Sarah need T- shirts.
One of the business men who declined to offer his identity said. There is a house in South Sudan in a place called Mauna and the house is called Blue House - A place where Ugandans are tortured.

NAMES OF THE AWARENESS TEAM MEMBERS WHO SHOWED UP FOR THE OUTREACH.

1- Nasubuga Hadijja
2- Babirye Sabunda 0706104909
3- Matampa Kinawataka
4- Nemwa Oliver 0777560297/0702050550
5- Nannyonga Betty 075853538
6- Assimwe Sarah.

Pastors’ First outreach

St Mbuga Gospel – Makindye Gospel Messengers Church - April 15, 2016

Olivia was able to go to the primary school that is attached to her local church. The outreach was done by Olivia herself and she introduced herself, gave the definition of human trafficking and then explained one picture from the resource guide. She used the one with the man luring the children from his car. She explained that on the way to and from school that people can approach them and that they need to tell a teacher or parent if they are approached. She then gave examples of human trafficking both locally and over sea so that the children new not only is it something over there, it is here in Kampala happening. The teachers and head principle were very encouraging and also said a few words on how important this message is and to also share it with friends so that the word gets out. There were about 250 children in this program listening.
Pastors’ Second Outreach - Makindye Gospel Messengers Church

The outreach conducted with the team from St. Mbuga Secondary School with Gospel Messengers Church, was done on Monday 25th April 2016. The team was lead and coordinated by Olivia, then another member and me that makes 3 member. We were given about 30mins of the assembly time and this was used effectively.

Olivia, being the leaders, she started the session with Greetings to the students and introduce us and the organization we work with in the campaigns of stopping Human Trafficking. She explained what human Trafficking is and gave multiple examples from the day-to-day life scenarios. The students had knowledge about the topic and this gave us a clear ground to educate them about the consequences to the victims of trafficking.

The other colleague also taught about the different means through which people can be trafficked and the different purposes for which they are taken for.

Then, I came in with the picture from the guide and the students reacted and gave their interpretations of the picture. We then gave our views of the picture and guided them on how to avoid people who persuade them with money.

The session was concluded with answering questions from one or two students, we cautioned them to beware of people who may traffic them, their friends and also family by saying no to all they offer. The school administration promised to give us more opportunities to talk to their students and staff about more facts on Human Trafficking.
Outcomes that came from this connection through the pastoral outreach is that Olivia had a close relative that was trafficked and has stated that there are many women in the church that she is curtain they had been trafficked and hopes to be able to connect with them.

Planned Activity 2.1.8 Conduct sensitization meetings on human trafficking and sexually exploitation for 300 young people in 2 schools, 2 churches, and 2 orphanages aged 12-25 years.

**Indicator:** Number of churches/schools/orphanages/ community centres reached with sensitization meetings

Number of young people reached with the sensitization meetings on human trafficking in the churches/schools/orphanages/community centres

**Actual:** A total of 55 participants from the 8 different locations (churches, schools, orphanages and community) attended and participated in the big event on Human Trafficking Awareness

On April 9, 2016, a big event aimed at creating awareness on human Trafficking and sexual exploitation was held at Makindye Country club. The session plan for the day included:

Total of young people that attended per location
- Worship harvest Church - 4
- Makerere Modern High School - 10
- God Cares High School - 9
- Watoto Ssubi - 8
- Watoto Bbiri - 7
- Kinawataka Community - 9
- Pastoral group - 3
- Bwaise Community - 5

The event started with all students receiving t-shirts and wrist bands and quickly children and patrons were changing into their shirts, the buzz of excitement already started.

Distribution of Aware and Response IEC Materials:

Posters:
- UYDEL 20
- Rahab Uganda 20
- Mr. Binoga 10
- 7 locations 10 each
- Daniel 5
- Pastors 5 each
- Gulu/extra 10

Wrist Bands
- Day event 88 participants
- UYDEL 75
- Rahab Uganda 75
- Mr. Binoga 20
- 7 locations 75 each
- Pastors 5 each
- Daniel 75
- Gulu/extra 50

Flyers
- UYDEL 150
- Rahab 150
- Each location 100
- Daniel 100
- Pastors 20 each
We then showed a video clip

![A Dangerous Journey](http://vimeo.com/95721191)

It was very well done in the respects that the person narrating the film and the people speaking were of African descent and had an accent that the participants could understand. The audience was very well fixated on the 6 min clip and it really helped bring to life the cartoon aspects that we were to follow up with later in the campaign with the Awareness and Response Cartoon Guides as well as our posters and flyers. The children then described what they saw and asked questions. It was very impacting

We then went into the Awareness and Response Cartoon Guide. Anna presented and went page by page to explain how to use the resource guide when they are participating with a group and with individuals. The students gave their opinions of the cartoons: Below are some of the responses:

**Picture one:**
- attracting children with money
- actually seducing them “if you come to me you will get money”

A young person asked, If a child has asked for a lift is this a case of human trafficking? Response, NO and then she explained that this is because we could not prove the three ingredients that make this case a Human trafficking case i.e. the ACT, the MEAN and the PURPOSE. She however explained that this could be a sign or an indicator if the child does not know the person and or a behaviour that could put a child a risk of being trafficked.

**Picture two: Victims**
- Both girls and boys
- Unhappy people
- Vulnerable people
- School gores and non-school goers

**Picture Three: Where to find victims**
Schools, churches, beaches, mansions, restaurants, roads, home, playgrounds, brothels, bards, mosques, social media

**Picture Four: Trafficking in persons, sexual exploitation forced labor**
Use pictures to trigger other forms of trafficking

**Picture Five: Effects of tip like alcohol and drug abuse**
They may use and it dangerous
Students responded with other effects
-suicide, murder, diseases, trauma, death, guilt, no hope, human trafficking, stress, depression, hatred
Picture Six:
Students said it shows
no money, no documents, fear to be killed, being abducted, no information, on hope to get back
home, not trust in all, embarrassment, no community, threats,

Picture Seven: What young people can do to fight trafficking?
- inform friends
- social media google search for research
- posters
- t shirts
- gatherings and awareness
- media, radio TV’s, village
- articles on notice boards
- assemblies in schools

Mr. Binoga then spoke more on what human trafficking is and what his part is as the National
Coordinator of the Anti- human trafficking task force. He also clearly explained what human
trafficking isn’t and that just because you do go over abroad and the work is not what you like it
may not always be trafficking and explained a lot for situations that he has had in the trafficking
and globally what is happening. He also made an emphasis on why awareness on international
laws and embassies is important knowledge to have because once you are in that other country it
is very difficult to get you home and he explained how hard it is and the procedures and policies
and how other governments work.

Mrs. Florence a Police officer who has also handled many cases of human trafficking and sexual
exploitation explained what she does when she has someone come and report a case and how they
do go out and investigate it and that they are working very hard to stop trafficking and sexual
exploitation of especially girls. She also explained situations of trafficking and what they are not
and what they are. She used an example of bringing a child from the village who is doing house
work, but that she is paying her and feeding her and also is having her go to school. That she is
not using her for he own gain, but that the child is part of the family since it is her sister’ daughter
and they are giving her opportunity to go to school, but also that she has chores in the home and
all families need to work to take care of each other.

After Lunch, we had each group break out for 20 minutes and come up with a skit on
Human trafficking situations they have seen in their communities. The remaining hour
was each group came up to perform there skit

- Makerere modern
- God cares
- Watoto Bira
- Watoto Suubi
- Bwaise
- Kinawataka
- Pastors
- Worship harvest

In conclusion, we had each group write out an Action plan (see attached documents) on how they
will go out to their surrounding communities and their sites to do peer to peer- led Human
trafficking and sexual exploitation awareness outreaches.
Planned Activity 2.1.9 Conduct a one day workshop with 60 club leaders in school, churches, orphanages and community centers aged 12-25 years to pilot the aware and response information. Education and communication materials and resource guides.

**Indicator:** Number of club leaders trained

**Actual:** A total of 64 young people from 8 institutions (churches/orphanages/school/community centres) were reached with messages on human trafficking and sexual exploitation and asked to write up essays on Human trafficking and sexual exploitation and below is a list of young people that wrote the best essays and invited to participate at the Big event on April 9, 2016.

**Objective 3:** To create linkages for provision of direct assistance, reporting and referral of victims of Trafficking in persons  

**Planned Activity 3.1.1:** Conduct a one-day training of trainers for 16 patrons in 2 schools, 2 orphanages 2 churches and 2 community centers around the schools  

**Indicator:** Number of staff from each facility will come and learn more on how and who to report human trafficking and sexual exploitation to, to have a way to ask for guidance on those who come forward and have either been or solicited for such activities in sexual exploitation and human trafficking  

**Actual:** A total of 28 staff were trained in a trainer of trainer on Human Trafficking  

We had 28 participants in this training on a deeper look into human trafficking. We took the participants through a case study and allowed them to get into 3 groups and come up with solutions to the questions asked. Asked question was how this is a case of Human trafficking, means, act and purpose. Each team then used a flip chart paper and wrote their findings and then one person from each group presented their findings. We then had question and answer time. Please see attached documents from the chart papers.
Then Annette presented Trauma and victims trends. She presented the trauma that survivors face and how life is affected when they return from being trafficked. She also went over the trends in the world of how social media and marketing play a role in trends. She also presented some of the ways that things are happening locally as well. Then we had a discussion time afterward’s.

We then had presented the referral mechanisms this was just a short brief discussion on who locally in your area you will be going to report human trafficking. The offices for the different divisions of the local police, also gave the numbers of Rahab Uganda and UYDEL so that they contact us with questions and help in the field as they participate in the communities with this awareness. Also gave them again the number to Mr. Binoga from the anti-human trafficking task force.

Then we went into the discussion of outreaches and the expectations of how to conduct them. We explained that the 300,000 provided is for outreach not person use and that we will need receipts in such things. We talked about the challenges in the local communities and how people want to get paid to come to such events and that this is a time to challenge the cultural norms and show them that this information is important it’s not to gain a monetary note for it. They were very receptive to the challenge that as you’re doing your daily life you will have the passion to discuss this with everyone you know. IT is when you’re in a taxi or at a friend’s function that you bring up the trainings you have been a part of and that this is a social calling to talk about what is happening to the people of Uganda. They also gave feedback on things that we could have done differently and we need to have had the posters and flyers also in the local language of Luganda. But the majority of them have already in place or have already started the outreaches in their communities and gave back great feedback and that they are going to continue this work and that we need to come up with a plan to further this work and not just have it stop at this point after the grant is done.
Planned Activity 3.1.2 Conduct a one day training of trainers for 30 UYDEL and Rahab Uganda social workers, service providers and staff.

**Indicator:** That a one day training for staff, social workers and providers will be conducted to further train and help staff to understand the out reaches in each of the schools, churches, orphanages and community centers.

**Actual:** Training was conducted for 23 participants on October 23, 2015

Planned Activity 3.1.3: Disseminate Educational Materials about Human Trafficking to the orphanages, churches, schools and general community

**Indicator:** Number of Educational Materials about Human Trafficking disseminated

**Actual:**
### Distribution of Aware and Response IEC Materials:

**Posters:**
- UYDEL: 20
- Rahab Uganda: 20
- Mr. Binoga: 10
- 7 locations: 10 each
- Daniel: 5
- Pastors: 5 each
- Gulu/extra: 10

**Wrist Bands**
- Day event: 88 participants
- UYDEL: 75
- Rahab Uganda: 75
- Mr. Binoga: 20
- 7 locations: 75 each
- Pastors: 5 each
- Daniel: 75
- Gulu/extra: 50

**Flyers**
- UYDEL: 150
- Rahab: 150
- Each location: 100
- Daniel: 100
- Pastors: 20 each
- Gulu/extra

---

### III. Challenges/Problems and Corrective Action

Please use this space to describe any challenges or problems the project has faced and any corrective action taken or proposed.
During this Implementation phase, the major challenge we faced was the inadequate Information, Education and Communication materials to support the massive outreaches as we had not anticipated that the trained 55 ambassadors would achieve much success with the outreach models and approaches chosen to create awareness about human trafficking. We originally planned for these young people to reach out to 300 other peers but they were all creative and thus reached out to 1,523 young people.

It was also difficult to for us to fund all the outreach and ideas that the young people had and to support them set up the clubs as we had limited financial resources. For example, in some schools the young people want to set up talking compounds, conduct massive outreaches in their nearby communities and even as they go back home to their villages for holidays and we could not support them undertake all these innovations. They also want us to have a Luganda version of all the resource materials and the cartoon guide.

IV. Evaluation of Program Impact and Lessons Learned

Describe what impact you believe the project had. Please provide evidence to support your statements. If there is numerical data you are able to report, please do so. For example: # participants that report increased awareness on issues of TIP; # participants that report increased access to information and resources; # participants involved in advocating for legislative/policy reforms; etc. If applicable, you may choose to comment on how actual numbers compare to the initial numbers you anticipated before beginning this project.

Additionally, please describe the following:
  a. What worked well and what did not work well during the implementation of the project?
  b. Which parts of your project were the most successful, which were not as successful?
  c. What suggestions or recommendations do you have for other organizations who are attempting similar efforts?

### A GRAPH SHOWING PARTICIPANTS’ IDEAS ABOUT HUMAN TRAFFICKING
From the above responses from the pre-test, it’s clear that majority of the young people reached out to have no idea of what human trafficking was and that no one had talked to them about human trafficking before the project team came in with the aware and response campaign. This implies that we still need to conduct more massive awareness as majority of young people have not heard this message before.

The Aware and Response Project was also success in reaching out to a wide range of young people include those in school, those out of school, those in orphanages and those in churches because it employed a wide range of methods to reach out to young people with messages on human trafficking. For example, the Aware and Response cartoon guide was very appealing to both in and out of school young people as it was a great way to get them to actively discuss issues of human trafficking, the Human Trafficking songs in both Luganda and English versions were good at triggering the discussions and also the presentation methods and role plays as well as the flyer, posters and videos. The use of social media was also appealing to those young people that have access to internet and can communicate online.

V. Media Coverage

Has your organization received any media attention on your activities related to the grant (e.g. photographs, news articles, and websites)? If so, please include clippings or other forms of reference

Below are the links to social media pages that were used to push the Aware and Response Anti-human trafficking campaign mainly spearheaded by Daniel Manzi aka, Logic EM our Human Trafficking Ambassador who composed and song the two Human Trafficking songs. Please note that we had not directly set out to use social media but in the course of project implementation this is something that we tried out and has given us a lot of results in with especially the young people in school and those that have access to internet and social media.

https://www.facebook.com/Logic-Em-512121202192924/?fref=nf - Is the link to Daniel’s Facebook official page. The user names for the official page are Logic Em which happen to also be Daniel’s stage names as an artist.

https://twitter.com/LogicEmMusic - Is the twitter Link the handle being @LogicEmMusic

Please check them out for more information.

Below is the You Tube link for the Urban TV television program dubbed #TAG that was hosted to break down the anti-human trafficking campaign #NoToHumanTrafficking. That was trending on social media. Please check it out more of these interviews will be needed to boost the campaign in a second phase if we do get a second phase of this project this is something we would like to promote further.

https://www.youtube.com/attribution_link?a=6lgIi7Imopg&u=%2Fwatch%3Fv%3DoH34edOfeA%26feature%3Dshare

Attached are some of the very many images taken in the course of the ongoing campaign. Some images were taken in studio where by a play card was provided, having invited a good number of friends, they posed with it with an intention of sharing the images on their various social media platforms including Twitter, Facebook and Instagram with the #NoToHumanTrafficking to create awareness.

Other images were taken from the communities, churches, schools and concerts/parties as our team was at it spreading the Anti-human trafficking campaign. Other images are screen shots of daniel’s phone to indicate the response gotten of social media which is enormously rising by the day.
VI. Case Studies

Please share any notable case studies from the project if there are any.

QUESTIONS FROM WATOTO BBIRI

In case you’re trafficked and taken to a foreign country and enclosed in a building for prostitution, you’re not allowed to be with a phone yet you don’t even have the passport. In that situation, how can you escape?

(Thank you for serving the country)

What has the police done about this problem?

Do you make a person you have rescued pay for their stay?

For all who want to grow in music, how can we contact logic (Daniel) so that we can also sensitive people.

We want his number.
How do you know that some is telling you true or take information that can you overcome human trafficking?

Which defensive mechanism can one use when they have been trafficked to another country without a phone number or anyone to help you and you work as a prostitute.
ESSAYS FROM WATOTO BBIRI

AN ESSAY ABOUT HUMAN TRAFFICKING

Trafficking in persons is a serious crime and a grave violation of human rights. Every year thousands of men, women and children fall into the hands of traffickers in their own countries and abroad. Almost every country in the world is affected by trafficking: whether as a country of origin, transit or destination for victims.

UNODC, on occasion of the United Nation Convention against Transnational Organized Crime (UNCOC) and the Protocol against, assists states in their efforts to combat the protocol to prevent, suppress and punish trafficking in persons.

Trafficking in persons, as the recruitment, transportation, transfer, harbouring or receipt of persons by means of the threat or use of force, or other forms of coercion, abduction, fraud, deception, payment or verbal promise, with the object of exploiting a person, particularly a woman, by-control over another person for the purpose of exploitation.

Exploitation shall include the exploitation of the procuring or others, or other forms of sexual exploitation, forced labour or services, slavery or practices similar to slavery, pitched or the removal of organs. Elements of human trafficking

BIBLIOGRAPHY

[Add bibliography content here]
on the basis of the definition given in the trafficking in persons protocol. It is evident that trafficking in persons has three constituent elements:

What is done, recruitment, harboring or receipt of persons. The means of how it is done, threat or use of force, coercion, abduction, fraud, deception, abuse of power or vulnerability or giving payment or benefits to a person in control of the victim. The purpose of exploitation which includes exploiting the prostitution of others, sexual exploitation, forced labour, slavery, or similar practices and the removal of organs. To ascertain whether a particular circumstance constitutes trafficking in person. Consider the deprivation of freedom in the trafficking in persons protocol and the constituent elements of the offence as described by relevant domestic legislation.

Criminalization of human trafficking: Protocol is meant to provide consistency and commonality around the world on the phenomenon of trafficking. In human trafficking protocol domestic legislation does not need to follow the language of the trafficking in persons protocol requires. Criminalisation also of attempts to commit a trafficking offence: Participation as an accomplice in such an offence.

Lastly, Nation legislation should also adopt the broad definition of trafficking prescribed in the protocol. The protocol definition should be dynamic and flexible so as to empower the legislative framework to respond effectively to trafficking which occurs both across borders and within a country, just (just across borders) is for a scope of exploitation purposes, not just sexual exploitation. Victims are children, women and men, remember...
To Human Trafficking Prevention Organisation

Human trafficking refers to the exploitation of human resource for various activities.

People are taken by these illegal organisations from their own or foreign countries to work there in order to earn living.

When bringing them or before they are promised but actually because when the work is doing people only make how much they are going to be paid in order of what they are good in doing.

My organisation that are helping people in the Arabic countries and the United Arab Emirates, Saudi Arabia where they are in need of security guards, cleaning, works drivers and other similar jobs.

These people are骗 told how when they are leaving from Hanoi because they have told on them to go and look in order to earn a living. For example their passports, visa and other needed business to be worked on by those people who are paid by those organisations that look for jobs by these people who are either and that they have looked for jobs for a period of time but they have not got any in the big city which they have wanted them.

And also some people taken to their countries because of shortage of work they applied for which is not the correct or expect they want to appreciate in my period of time which they have not even got anything.
Women who were taken by certain government officials and worked in those Arabic countries in order for them to earn a living but when they reached their age, they were forced to do work which is not believed by humanity because it is on top of them. Their personal documents were taken away from them like what they studied or specialise in and their personal curriculum vitae.

And also some were not even given some money to eat, they can give them once in a day eventually because of how they lived. Some were being used by these men, they are in those Arabic countries in a bad way which is not good at all. Some were being mistreated by being electrically, which makes persons to be in a very painful pain because we all know electricity is not played with.

Some were being mistreated according to their religion which in the Arabic countries is that people who do not believe in those countries, they must not be smiled on because we criminals.

My thinking was put on social media but since if you want to know more about it —

Below are the reasons as to why I strongly stand out against human trafficking:

I cannot see someone go through the above situation and just look because of the circumstances which does not know their survival. I have to come from the big sound and be something which is beautiful to those people. A person who is being used by the most eratically, his living cut short out of society, which is not good to someone to work and report these issues to people in authority that be responsible to handle them.

I cannot see someone living for someone or in a country and not even have the life in a house in this almost death.
FOR LADY AND MY LORD

Written by Sina Mynabi

Sina Mynabi
when it is written that no one works for nothing and to get a certain goal achieved in a certain period or time. I have to take a step and report those people to organize me to deal with the issue that leads to good in my right way and which is against the law.

I cannot see people being removed from their place and just decide not to use it. Therefore, I have to be responsible for children in my society and report to certain ministries like the Ministry of Human Resources.

I cannot see someone being punished by electrically or having their personal punishment in order to get them in a lower state that cannot be talked or heard or in public because if this, I have to come out and report. Therefore, I have to continue punishment even when they are not good to a certain country because the population of people in that town.

I cannot hear or read in articles where someone promises to take someone to a certain place to work in a mining and then ends up killing her to burst her head because it is also meant to burst someone instead of a human or not burst her head. Children that are not yours or hers, we will know that those stories are being put on social media and new papers as a proven of interest who love human race. I take a step and report that people that do this kind of stuff to people in peace.

I cannot see witch doctors or hear about them that take our country generation into captivity where they want or even sometimes destroy them to their glory death and in some cases, these children that we have and up bringing. To not understand anything that they used to know as we bring them up. They were before taking them. Therefore, I need to report this to some people that are over me or that are in the mean to help in remodeling their children and keeping the human traffic in organizations that can work on them.
Human trafficking is an issue of human rights and society's responsibility. We must all come together to prevent it from happening. I believe that we should do our best to help those who are enslaved. Not only is the sale of human beings against the law, but it is also against our morals and ethics. We should not allow anyone to be treated as property. Instead, we should treat each other with respect and kindness.

Believe in the reasons why human trafficking should end (my ideas)

Human trafficking has led to the destruction of many lives. For example, a girl who was sold for marriage was given to a stranger. She was forced to work in a factory for little pay and no rights.

It has been a violation of human rights. One should be able to live a happy life without any restrictions. Our goal should be to protect innocent people and ensure that their freedom is not destroyed.

I HATE AND EVADE SUCH AS HUMAN TRAFFICKING.

From: Kyann Siphiwe Isand
My name is Alexia Rutina Moe and I surely would like to go to REHAB, not because I think it’s fancy and by joining it many people will like me, but because I really feel the passion you have to leave a life, atom, air, & a notion. This didn’t start yesterday but back then when I realized that it was beautiful to live an active life, alive where it’s not about me, it’s about the people I can serve. Of course I know service is not easy but it becomes sweeter when you see others happy. As a little kid in primary school I wanted to become a social worker when I finished school. Well I didn’t really know why I actually wanted to do it, but now I want to become a Forensic Psychologist and am pretty sure why I wanna do it. I have come to learn that the human race can never be justified even when they have more share what they need. You know I kind of once got involved with a trafficker but lucky enough with my growing mental entity saved me then. He said he knew me and he wanted me to go to his house. Oh boy trust me, if it was anyone else with the kind of hunger I had that day, he would have taken them. So I wanna tell friends (the world) that they can also win no despite what they think they are gonna get out of it. "IT IS NOT WORTH THERE LIFE" It really pains me seeing very selfish humans taking advantage of other. So hear I here to say no no no!!!
WHY I WOULD LOVE TO JOIN YOU

In my senior four level, shortly after the external marks' results were released, I was revising with two of my friends when suddenly dropped the book with a sigh. I was already demoralized by the results so I exclaimed, "At this rate, No one can have such a feature in years to come. Might be reduced to prostitution." My friends laughed it off, probably because they knew me too structured and knew better. A human being can do anything when pushed to the wall unless God intervenes. You have never heard the saying "Necessity begets no law". Fast forward, luckily passed West and joined All Tel. So, at the start of this term, heard the prettiest girl in class, don't ask me how I knew that, I make a semicolon remark, and it tore my heart. Cause knew what she was going through. But kept my opinion to myself, cause I was just teasing her. I knew that you walk with such people, and I would be glad to help because many have that mentality. They need to be told that prostitution is not the solution.

I strongly believe in what you do and like the fact that some of you are Christians and are thus led by the Holy Spirit. I also love your creativity and personalities. Here's a way you complement each other by working together. And love the unity. You were so free and genuine—wish each other and I'm sure we would get along just fine. Can sing act and speak audibly well. I wouldn't let you down.

I have always wanted to help people. And giving me an opportunity is astounding. I would join you in a heartbeat if given the chance.

Even without joining you, you taught me enough. When you came at our school on 2nd March. And I know that could influence some people positively. That much I will undoubtedly do. However, my dream to reach masses and
So said end off. It was a very long letter. I am not going to read it back to you.

And then I saw it. It was a bold heading covering almost the whole front page and next to it - was a photo. It read: "New video shows Arabs Choking Ugandan Woman on sperm's". I said:  

To say that I was shocked would be an understatement. I didn't understand why anyone could be so hell-bent on committing such a heinous act. I was disgusted, nauseated, and Angry at the Arab race. What they did was inhuman, no doubt, but what made me feel even worse was the fact that deep down inside, I knew that there was nothing I could do about it. And that hurt so much, as much as being sliced in half by a double-edged sword. So, I was obliged - toute de même - to pray.

I know not how best to commence you but I believe that your saying wasn't in vain. I strongly believe that this opportunity came from God himself. Even if it weren't for those words, I would have been happy to do something. Most people haven't bothered putting money into the effort, but I believe that something is better than nothing. Someone once said: No one made a greater mistake than him who did nothing because he could do little.".

I might not know much, but this I do know, don't want to be like that man. As I conclude, I have only one request.

Please..."
Ignorance is not a virtue, and yet even with information everywhere, people are still making decisions based on ignorance. I want to give back to my country, Uganda by planting seeds of awareness. If one person, no matter how small, can help, that is better than none - something is better than nothing.

I also found it very alarming that the ratio of people getting rescued from the bondage of exploitation is 1:1000. On top of being overwhelming, this sudden realization sparked a fire in me. And this fire can only be put out with me knowing that I am actually doing something to improve the situation.

I have read many articles, watched movies, and closely followed series on human trafficking. Some were so emotional that they provoked me to tears. But even worse is what it is in reality. In life, most of these victims are exposed to worse circumstances and experiences.

In one of the last weeks of the holidays, I had escorted my friend to the nearest trading centre to purchase a few items. On our way back, we stopped at a shop to buy ice cream.

As I waited outside, I noticed a vacant shop. It looked so inviting to my tired self and I needed no invitation. So I went and sat. It wasn’t long before I started glancing to and fro.

And then I saw it. It was a bold heading covering almost the whole front page and next to it was a photo. It read: “New video shows Arabs Choking Ugandan Woman on spot”. I died.

To say that I was shocked would be an understatement. I couldn’t understand why anyone could be so hell-bent on committing such a heinous act. I was disgusted, nauseated and angry at the Arab race. What they did was barbaric, but what made me feel even worse...
I come from a village which how people who don't know what takes place in the country and in the world and when you look at them, they seem to be in their own world.

Getting a copy of newspapers, they have to travel for about 10 miles just to own one. The radio would offer them to us also unaware because 90% of these people carry out subsistence farming and the remaining aren't educated as well. And this is not only because they don't have a market, but because they are not informed about what is taking place in the country.

Mahanagyi Jockie, writing to you, I had never heard of the human traffic until I came this side of the world and you spoke about those very things which happen that are especially prostitution and early marriages.

I want to be a change radio and then a sensible newspaper for them by informing them about human trafficking. With the above knowledge about human trafficking.

I would not make them pay because you have not made me pay for the inspiring information that you gave me.

And with those few words above, I request to be part of the human trafficking training sessions.

I promise you will do good to the community if I am given more information about human trafficking.

I will be happy when my request is granted.

Yours faithfully,
Mahanagyi Jockie.
of God and make sure that they relinquish from the ungodly acts.

I would like to get involved in the prevention of human trafficking because I want to encourage the traumatized to keep up with high esteem because there's a saying that states that there is always a new beginning for those who seem to be lost.

I would like to get involved in the prevention of human trafficking in order to help my fellow Ugandans to come to a reduction of people being slaughtered and transcendent of our nation and to do that I should live by example so that I may show the people around me that I love my country and everything in it hence influencing them to having a positive attitude towards our country and in reducing the desires in them for other countries.

I would like to get involved in the prevention of human trafficking because I believe that I am a leader, a champion, God's number one and also a world's changer. Likewise, letting them know that they can also be like me if they decide to take the right route cause nothing is impossible with God.
Why would you like to get involved in the prevention of human trafficking?

I would like to get involved in the prevention of human trafficking because I don't enjoy what's happening to my fellow Ugandans especially the ladies that are forced into prostitution.

I would also like to get involved in the prevention of human trafficking because I would like to encourage my fellow students that false promises will always let us down if we decide to follow them and so I should they be careful.

I would also like to get involved in the prevention of human trafficking in order to help the young souls especially realize the straight path so early and do what is required of them in time.

I would also like to get involved in the prevention of human trafficking in order to reduce on the number of those who engage in trafficking people and I promise doing that by reporting to the nearest police station.

I would also like to get involved in the prevention of human trafficking in order to restrict high abortion rates which came as a result of acting immorally for example engaging in sexual acts e.g., prostitution among adults and young children.
restrict high abortion rates which came as a result of acting immorally for example engaging in sexual acts e.g. prostitution among adults and young children.

I would like to get involved in the prevention of human trafficking in order to befriend those already in the act so that I may preach to them the word
Human trafficking manifests in many different forms, such as trafficking, bonded labour, forced early marriage.

In most cases, poverty lies at the heart of human trafficking and desire for adventure is search for a better life.

In sex trafficking, children and women are reduced to the status of gratifying sexual commodity. And young boys are also subjected to sex trafficking, they are used for homosexuality acts.

Human trafficking has become an organised billion-dollar industry and has its core investors, unscrupulous recruiters, and corrupt public officials as principal participants.

There is a service industry entirely dedicated to providing forged travel documents, legal and financial assistance.

Human trafficking can affect any body at any time, that is friends, family members, relatives, people around you and the entire community. This can happen at work, home, on vacation, on your way back home or on a tour.

Human trafficking has increased dramatically on a high rate recently, this is because many people are in search of jobs, need to make easy money, desire to cross borders, have better life and education especially for people in rural areas who dream of better life for their children.

Many parents/guardians have given their children to strangers who live in the city to provide better life for their children hence they end up falling in to trap of being trafficked since they know the parents of
These children are poor it is hard for them to do a follow up, they end up becoming the victims of traffickers.

Recently after the talk about human trafficking at World Harvest Church in Nairobi, I shared with my sister Kate about human trafficking and how it can be done, what kind of tricks people are using.

She told me about a deal she had made with some cousin who lives in Dubai. He wanted to take some cousin of mine to Dubai to work as a maid in some one’s home. She was to be provided with all travel documents she needed. They had that conversation two weeks back, good enough my sister had not yet got in touch with my cousin they wanted to travel to Dubai.

During our conversation my sister realised that it might be a trap, she can become a victim of the circumstance that is she may put someone’s life in danger to live a life full of night moves.

After two days we agreed to meet my cousin, we met and talked to her about human trafficking and how to try to avoid being so desperate in searching for jobs. She promised not to take up jobs that especially beyond the borders from sources she does not know or trust.

Some people are aware about human trafficking but they think it is happening across borders and they believe they can do nothing to stop this, yet everyone can be of help.

It is happening every here today.
I believe it starts here with me. I am the voice of girls and women out there in danger of being victims of traffickers in my home, work, community and in my country.

It starts here today.
Together we can change the world.

Everything is possible with God.

Human trafficking can also be known as modern slavery. Every year thousands of men, women, and children fall in the hands of traffickers in their own countries and also abroad.

Trafficking in person is defined as recruitment, transportation, transfer, harboring or receipt of persons by means of threat or use of force or other forms of coercion, of abduction, of fraud, of deception, of giving or receiving payments to achieve the consent of a person having control over another for purpose of exploitation.

I would therefore love to be a part of Rahab Uganda which is a symbol of transformation because of its very clear vision which I connect with that is, “To see a transformed nation promoting the value and self-worth of girls”. And also the mission, “To restore the self-image of girls affected by sexual exploitation and empower them for personal and community transformation”.

I will be very grateful to be a part of you.

Marjorine Nantambi

My name is Akinyi Clare Muga. I am a second year MasterCard scholar pursuing Bachelors of Community Psychology at Makerere University. I am very passionate about making the world a better place and I have therefore been volunteering as a peer educator with Reach a Hand Uganda. Our vision is for young people to make informed choices in life and we travel to schools and communities equipping young people with life skills and disseminating information on sexual reproductive health.

Being a peer educator has given me exposure to many young people who are the most vulnerable to human trafficking and its effects. Being an ambassador will help me reach out to these people and curb this vice. In preventing human trafficking, I will not only be able to raise awareness, but also equip people with life skills like assertiveness, creativity, and innovativeness which reduce vulnerability to human trafficking.

I will also be able to use my skills as a psychologist to offer care and counselling to the victims of human trafficking.

Above all, being an ambassador will give me the opportunity to reach out and transform more and more lives through Christ which to me is the most important thing.
I am interested in being an ambassador of human trafficking from Hope Senior School, Nalolo, because of very many reasons. One of them is I want to help and save the innocent people who have been hurt and harmed due to the merciless human traffickers. I believe that we all, as humans, need to live in peace and harmony because we were all created in the image of God. I also want to give awareness to the people who are ignorant about this information of human trafficking because we need to protect and watch out for ourselves and others. I was inspired by the way this programme was introduced to us at school and I was blessed so I also want to be an inspiration to one or more youths out there who feel the need of protecting fellow humans. May God richly bless you as you save the innocent people and reach out to warn the rest who have not yet experienced the dangers of human trafficking.

SARAH PRECIOUS YAKEM
S: 4

16th March 2016
HUMAN TRAFFICKING

It is tragic for the innocent people to die unrecognized. The ones that perhaps could have made this world a better place to be. In their innocence, they are trafficked—a sad story to tell because many are sexually abused, overworked, separated from loved ones and the less fortunate lose their breath.

My heart is grieved when I hear such sad stories, my soul finds no rest when my fellow Ugandans and other people in the world are not at peace. I can never forget putting them in God’s hands because him alone can turn those trying moments into testimonies.

I desire to make aware those who are not aware, write to those to whom it’s not yet made known about the evil of human trafficking, I desire to see Ugandans appreciate the beauty of the pearl of Africa so that they do not loose their joy trying to go else where.

Making people aware of their fundamental rights and the ability to fight for them is my deep desire. Creating love between societies making each person their brothers’ keeper will surely make a difference in our nation and world wide during the struggle and fight against trafficking.

Together, we can shine a spotlight in world’s diminishing morals, the great work you are already doing is significant. I believe we can do more to save innocent souls from perishing.

United we stand, for God and my Country.
1. What once given a chance to do so, I say no to Human Trafficking, how about other people???

Yours faithfully

SSEKISAMBU ISAAC
Form three, 2016.

AGAINST HUMAN TRAFFICKING

29/08/2016

SSEKISAMBU ISAAC
Form three.
NAME: ELAINE ESTHER
SCHOOL: HOPE SENIOR SCHOOL - WAIOTO
CLASS: SENIOR FIVE   AGE: 17 YEARS

I would like to learn more about human trafficking and help to raise awareness about this crime as an ambassador to my school. I am a compassionate person who believes that everyone should be happy and should live harmoniously and peacefully in society. That compassion compels me to stand up and fight for the victims of human trafficking, which denies people the peaceful, harmonious life. I know that they are so many people being trafficked for different reasons like sexual exploitation, harsh and forced labor, and even some people are asked to do inhuman acts like beastility just to satisfy people's pets.

To add on what I have mentioned above, human trafficking has many outcomes or effects. First of all, it creates a sense of negativity in the victim, that is to say, one develops a certain hatred towards life, people around them, and they think that everything in life is like that because of the suffering they have been through. Secondly, it is obvious that the memories can't be forgotten so the victim is constantly haunted by those memories and they therefore lose heart. Those are just a few of the effects, but I really want to be part of the team to stop human trafficking and rescue those who are trafficked to see a better generation. I strongly believe that those victims have potentials that can be put to use, for example, their talents and other things. GOD BLESS YOU.
My name is Mbabazi Soreen. I am from Hope Senior Secondary School, I am in Form two. And I would like to become an ambassador of Hope Senior School because of the following reasons:

Since I have passed through human trafficking, I would like to share my story with other people in order for them to learn how to protect themselves. I would like to meet new people and get to share with people and we learn mostly from each other. I would like to encourage people to learn the importance of learning about human trafficking. If I am given a chance, I will use it and represent my school and lead my well.

I would like to experience my pain with people and learn to let go of the past in order to make our tomorrow better. I want to make friends with new people that will meet and help them understand the dangers of human trafficking. In order to make your country better, teenagers learn mostly from their fellows. If I am given a chance, I will promise to use it well and carefully. And I believe we all learn from experience.

Thank you so much for teaching me about human trafficking. I learnt to let go of the past and I learnt the importance of protecting others from human trafficking.

Yours faithfully
I would like to stand for hope, high school,不忘初心 as an ambassador for human trafficking. This is because I am confident in myself and I know I can do this. The human traffickers are doing more harm than good to my country. They are like parasites who take from others or transport them across and don't give away or return anything.

Adding on this, blood is shed in the recent people on suffering and the remaining people who are being due to the ignorance of some of them. People. I would like to go informing the people about human trafficking, how it does, damage, and prevention. As our motto states: "FREEDOM AND MY COUNTRY." I think when I do this, I will be doing it for God and the people in my country.

In conclusion, I would like to wish you an
The best as you go around saving lives and people may God bless you.

Mary Borque
Human trafficking refers to the act of buying and selling human beings.

Why would Ugandans, Kanyans, Americans, Europeans resort to human trafficking instead of establishing legitimate profitable business? This question is not rhetoric. There are several factors that have compelled Ugandans and other races in the entire world to deal in human trafficking.

The violation of human rights involves forced labour, removal of human organs, forced marriages, kidnapping and abduction.

Cause of human trafficking is ignorance set up or among citizens. People are unaware of the social economic set up of the Arab, American and European countries. They just hoodwinked or fooled or duped that those countries are fully developed.

Solution: The remedy to this issue could be creating a wariness to the public as well as staging human trafficking workshops all over the country.

How are things?
VII. Feedback

Please share any feedback on how Vital Voices could improve or better support your work during the remainder of the grant project.

We are Grateful to Vital Voices for having provided us with this grant that enabled the project team achieve all these amazing results and success and we would like to request Vital voices for an extension of this amazing project which saw many young people from the local communities, schools, orphanges and churches acquire knowledge and information on how to identify, detect and respond to Human Trafficking situations. The project triggers many positive responses especially through the Social Media and face to face outreaches in the different communities which we need to harness and follow up on, the project also created a huge demand for increased awareness and IEC materials to sensitize different communities that see human trafficking every day but cannot identify it or do not know where to go for support in case they see it happening in their communities.

VII. Financial Report

Please fill out the attached expenditure update.

Attached is the Expenditure report
